Elastocoat C 6335/101/7024

To whom it might concern,

Herewith BASF would like to state that the:

Elastocoat® C 6335/101/7024

Is a 100% pure polyurea according the definitions of the PDA US, PDA Europe and the "general rules of chemistry" which means the product contains no functional polyalcohols which could lead to urethane formation.

With kind regards,

Alain van Oorsouw
Global Technical Manager Oil&Gas
